

## Geltex Coated - Datasheet

Geltex Coated is a coated paper the likes of which have never been seen before. Its long-fibre composition affords it unbeatable functionality, merging the graphic quality of coated paper and the strength and mechanical properties of Geltex.

## Description

Strength and brightness in printed colours. A range of papers designed to embellish any print job, including screen printing or stamping. Its fabric-like texture will afford a touch of distinction to any publishing design, be it hardback or rustic binding. Flexible creations: foldable boxes, tags or bags will also look different.

Folding

## Sustainability

Involved wit out planet, so that we can all continue to enjoy it as it is.

20% of the waste generated in the manufacture of paper is reused internally.

Our papers are produced on a neutral and aqueous basis, with a pH around 7, if it is not recycled.

The papers we manufacture are made with raw materials free of heavy metals, guaranteeing safety for humans and the envinorment.
