

Masterblank - Datasheet

It conveys personality and elegance in binding and flexible packaging commissions. Its strength and good in-machine behaviour make it compatible with any printing, stamping, dry relief or screen printing technique.

Description

The rough and natural surface of this paper, pleasant and cotton-like to the touch, flexible and strong, makes it compatible with any type of printing: offset, toner, HP Indigo®, stamping, dry relief and screen printing.

Ideal for rustic binding as well as flexible packaging, either of its two white colours are perfect for cards, invitations, envelopes, paperback books, high-grammage covers, bands or dust jackets.
